

Information regarding the end of life of the PacDrive M system

PACDRIVE SYSTEMS

The PacDrive M Packaging Automation System was launched in 1998 year by ELAU AG. Since 2008, ELAU AG has been an integral part of Schneider Electric.

In 2011, the PacDrive 3 - new automation solution for high-performance machines, was introduced to the market. This solution is currently being developed by Schneider Electric.

In 2014, Schneider Electric announced the end of the life of the PacDrive M series.

DYNAMOTION AUTHORIZED DISTRIBUTOR OF PACDRIVE SYSTEMS IN POLAND
